

Easter Holiday Project

Have a think about the playgrounds that you have visited. What did they have at the playground that you liked? What did you enjoy playing on or with?

What didn't the playground have that you wished it had? Have a think.

Design your dream playground.

You can design your own dream playground on a piece of paper or using recycled materials. Maybe you could use construction resources that you have at home such as duplo or lego. Give your playground a name. You could also name the different areas of the playground.

Will your playground have swings?

Will your playground have climbing frames or walls?

Will your playground have tunnels?

Will your playground have things to play on or in?

Will your playground have places to mark make?

Will your playground have a garden to

plant things or places to encourage wildlife?
