

Dinosaurs

We hope you have fun finding out about dinosaurs this week!

<p>Watch this information clip on dinosaurs https://www.youtube.com/watch?v=dktnOPfE7Dc https://www.youtube.com/watch?v=rLfjB2TKvYY Can you make a short video clip about everything that you know about dinosaurs. Make sure you show pictures that you have drawn in the clip. Post it on Tapestry.</p>	<p>Art Using recyclable materials make a model of a dinosaur or make a dinosaur mask.</p>    
<p>Talk about... Imagine you found a dinosaur egg and watched while it started to hatch. What would the dinosaur baby look like? How big would it be, would it have wings, what colour what it be? What would you do next? Draw the dinosaur baby hatching from its egg.</p> 	
<p>Make up some dinosaur names. Lots end in "saurus" Try with your own name E.g johnstonsaurus, shreesaurus. Which is the funniest or oddest sounding name? Which is the longest? Can you write it down?</p>	<p>Music Can you make some music using your voice and any pots, pans or objects to make sounds like the different dinosaurs? Large, booming noises for stomping TRex or swooping sounds for the pterodactyls in the air. What about swooshing sounds for the sea dinosaurs.</p>
<p>Shapes Cut out lots of shapes- squares, circles and triangles. Can you put them together to make a new dinosaur?</p> 	<p>Dinosaur counting to 10 See Hideasaurus book. Can you make a dinosaur counting book? Make up some dinosaur maths problems to test your brothers or sisters. E.g. If a T Rex laid 7 eggs and 5 rolled away. How many would be left in the nest? Which is the trickiest question you can think of?</p>
<p>Writing Make a report to the newspapers of a dinosaur that you have discovered in your back garden. What did it look like? Was it friendly or fierce? Did you feed it and what did it eat? Did it have babies? Tell your family everything you can about this amazing discovery then have a go at writing it down. Don't forget to draw a picture of you with the dinosaur so that the newspaper will believe you!</p>	<p>if you have a small toy dinosaur put it inside a balloon, fill the balloon with water and then freeze it. When you take it out of the freezer, take off the balloon and watch while the ice melts. Can you speed up the process by putting it in a warm room? How else can you get the dinosaur out? Which would be the quickest way you can think of?</p>
<p>Movement How would the different dinosaurs move? Lightly or stomping, running or swooping. Get someone in your family to guess which dinosaur you are.</p> 	<p>Reading Read Harry and his bucketful of dinosaurs https://www.youtube.com/watch?v=MTjQeCspMkY</p> <p>Research Find out all you can about dinosaurs. Make a dinosaur fact book.</p>
