

Science - Properties and changes of matter

**Task:** Watch the video in your class stream and have a go at sorting the following pictures in to reversible and irreversible changes.

You can copy the table out into your exercise books and write the change instead of cutting out the pictures if you prefer.

Answer questions 2 and 3 to challenge yourself and demonstrate your knowledge

L.O: reversible and irreversible changes

Reversible and irreversible changes

1. Sort the following changes

Reversible	Irreversible

2. For the reversible changes, explain how the change can be reversed

3. For the irreversible changes, identify the reactant(s) and the product(s).
