

## Science - Properties and changes of matter

Task: Click the link on your class stream and follow the instructions to safely access our virtual lab.

## L.O: Separating substances

- 1. What are the most important safety rules we must follow when conducting experiments?
- 2. What equipment did you use?
- 3. Explain how each of the following pieces of equipment helped you to clean the water.
  - Sieve
  - Paper filter
  - Activated carbon

4. Draw and label step-by-step instructions demonstrating how you were able to clean the water.

Bonus challenge: Can you earn the 'perfectionist' badge?!
