Our data protection officer is Katie Wetherill.

The lawful basis on which Alexandra Primary School uses this information

Alexandra Primary School collects and uses pupil information under the submission of the school census returns, including a set of named pupil records, is a statutory requirement on schools under Section 537A of the Education Act 1996.

Putting the school census on a statutory basis complies with Article 6 and Article 9 of the GDPR which set the lawful basis for processing data and:

- means that schools do not need to obtain parental or pupil consent to the provision of information;
- ensures schools are protected from any legal challenge that they are breaching a duty of confidence to pupils;
- helps to ensure that returns are completed by schools.

Why we share pupil information?

The School does not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

Alexandra Primary School share pupils' data with the DfE on a statutory basis such as the school census information and early years' census. This data sharing is used to assess school funding, educational attainment policy and monitoring.

The School is also required to share information about our pupils with Haringey Council as the local authority and the DfE under section 3 of The Education (Information About Individual Pupils) (England) Regulations 2013.

The National Pupil Database (NPD) is managed by the DfE and contains information about pupils in schools in England. The information is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

Alexandra Primary School is required by law to provide information about our pupils to the DfE as part of statutory data collections, for example, the school census; some of this information is then stored in the NPD.

The DfE may share information about Alexandra Primary School pupils taken from the NDP with other organisations who promote the education or wellbeing of children in England by:

- Conducting research or analysis;
- Producing statistics;
